A Forking Delicious Experience

In mid winter of 2005, four women met for the first time, searching for others who shared a commitment and passion for food.

Each of us has a specific food passion—catering, cooking lessons, event meals, food travel. Please read our food diaries and share in our passion for well-prepared food, wine (okay, champagne) and good company.

Though our paths have been different, and our interests diverse... the final conclusion was unanimous.

We are Forking Delicious.
